

net2order Privacy Statement

net2order takes your privacy concerns extremely seriously. When it comes to protecting data and information relating to you and your business, net2order wants you, the user, to feel comfortable and confident that your privacy is being protected at all times on our site. The following provisions explain how net2order treats information that may be collected from you through the use of its services.

If you have any questions about this program, please contact us at info@net2order.com.

Collection of information

net2order is committed to keeping your personal and organizational information private and abides by the net2order Privacy Statement. To provide its users with personalized services and custom data, net2order collects registration information from its users.

Registration information

When creating a new account on net2order.com or eventexpresspro.com, you are required to disclose certain customer registration information. This information includes customer contact information (name, address, city, state, phone, fax, e-mail, and password). This information is not disclosed to third parties (except events that you register with) but is used to notify you of any system upgrades, technical support issues or other relevant information. Billing and credit card information is NOT stored on net2order servers.

Sharing of information

net2order takes the privacy of its users extremely seriously. As a consequence, net2order has a strict policy against sharing individual user data with third parties, except for events that you register with. net2order may disclose or exchange user information when required by law, or, if necessary, to protect the rights or property of net2order or its users.

It is important for net2order users to realize that net2order's privacy policy applies solely to information collected on this Site. Although the Site contains links to other sites, net2order is not responsible for the privacy practices of other sites. For privacy information regarding other sites, please refer to their individual privacy policies.

Security

net2order has security measures in place to protect against the loss, misuse, and unauthorized alteration of the information under its control.

SSL: Any and all of your confidential transactions, between you and net2order or events using Event Express Pro, are protected within Secure Socket Layer, the industry standard protocol for maintaining security. net2order supports up to 128-bit encryption, the strongest available encryption used through a web-browser. net2order's SSL is certified through Verisign.

Cookies: net2order utilizes encrypted "Cookies" (bits of data that can be placed on a user's hard drive as a kind of "ID") for user identification purposes.

User responsibility: net2order takes every precaution to keep any and all confidential information secure. However, due to required functionality of this application, information may be shared between users and their customers. net2order shall not be liable for disbursement of such information resulting from user activity.

Correcting/updating personal information

Your personal information may be accessed and updated by you at any time. To edit your personal information, you can log in to your net2order 2Pass account followed by the "My Profile" button and then click the "Update" button. This will allow you to make any changes and modify the information you have previously shared with us.

Contacting net2order

Any modifications to net2order's privacy practices will be reflected first within this document. If you have any questions regarding this privacy statement, or regarding any other aspects of net2order or Event Express Pro, please contact us at <mailto:info@net2order.com>.
